Cabrini NOW Planning Effort Continues

Published on December 23, 2024

Nearly 120 Cabrini community members, including more than 20 CHA residents, joined us on December 11 for the third Cabrini NOW planning and design process community conversation.

After several months of working together with residents and other stakeholders, CHA and our consultant team created a draft redevelopment plan for CHA-owned sites in the Cabrini area. At the third and final community event, CHA gathered another round of feedback before we start to finalize the plan and continue implementing the final phases of redevelopment in Cabrini.

There will be more opportunities for input on Cabrini NOW and site-specific redevelopment efforts, so please check out [Cabrini NOW](#) to access the presentation materials and recording, learn more, share your views and sign-up for updates!
