Celebrating Computer Essentials Graduates

Published on April 1, 2025

CHA, AARP and OATS (Older Adults Technology Services) proudly recognized 23 CHA residents who successfully completed the 5-week [Digital Skills Ready@50+](#) course at our Digital Resource Centers across Chicago. They join more than 500 CHA residents who have been part of this program

since 2022.

Designed for adults aged 50 and older, the program provides essential computer skills to help residents connect online, build confidence, and use technology more independently. Graduates receive a certificate of completion and a refurbished laptop to support their continued learning. Participants with perfect attendance were also honored with a special recognition certificate.
