New Laptops for Residents at Westhaven, Abia and Dearborn Homes

Published on April 30, 2025

This April, CHA and Compudopt partnered to provide over 80 Westhaven, ABLA, and Dearborn Homes residents with refurbished laptops and internet access, part of the agency's ongoing commitment to increasing tech access and bridging the digital divide.

"I plan to use my laptop to do a job search; I'm also going to use it to learn about all the things I want to know more about," said one resident.

In 2024, CHA distributed over 500 internet-ready devices to support digital inclusion across our communities. Learn more about tech access at our [Digital Resource Centers](#).

Special thanks to our partners: Chicago Public Library, City of Chicago, Major Adams Community Committee, Assurance, Astound, at &T, Verizon, and Xfinity!
